## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Kirschner (USPN 5,509,971). Kirschner inherently discloses a method of removing a coating from a substrate comprising the steps of impinging the coating with a pressurized fluid stream comprising a mixture of liquid and an abrasive, while moving the fluid stream or the substrate relative to the other to fully expose the coating to the fluid stream, regulating a mixture ratio between the water and the abrasive, wherein the liquid is water (note abstract, col. 2, line 63 to col. 3, line 10, col. 4, lines 34-42).

### ***Allowable Subject Matter***

3. Claims 3-9 and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Liebke et al, Lloyd, Farrow and Esser et al are cited to show a method of removing coating from a substrate.
